ROLE OF SCHOOL DISTRICT ADMINISTRATION

In this series of the board policy manual, the board defines the role and the employment of school district administrators. Policies in the 400 Series, "Employees," also apply to administrators unless a more specific policy exists in the 300 Series, "Administration."

School district administrators have been given a great opportunity and responsibility to manage the school district, to provide educational leadership, and to implement the educational philosophy of the school district. They are responsible for the day-to-day operations of the school district. In carrying out these operations, the administrators are guided by board policies, the law, the needs of the students, and the wishes of the citizens in the school district community.

It is the responsibility of the administrators to implement and enforce the policies of the board, to oversee employees, to monitor educational issues confronting the school district, and to inform the board about school district operations.

While the board holds the superintendent ultimately responsible for these duties, the principals are more directly responsible for educational results, for the administration of the school facilities and for the employees.

The board and the administration will work together to share information and decisions under the management team concept.

MANAGEMENT

The board and the administrators will work together in making decisions and setting goals for the school district. This effort is designed to obtain, share, and use information to solve problems, make decisions, and formulate school district policies and regulations.

It is the responsibility of each administrator to fully participate in the management of the school district by investigating, analyzing, and expressing their views on issues. Those board members or administrators with special expertise or knowledge of an issue may be called upon to provide information. Each board member and administrator will support the decisions reached on the issues confronting the school district.

The board is responsible for making the final decision in matters pertaining to the school district.

It is the responsibility of the superintendent to develop guidelines for cooperative decision-making.

The board considers all those who have a role in the recruitment or release of employees to be part of the management team. The management team shall be headed by the superintendent. The superintendent shall convene meetings to discuss school district policies, administrative procedures and other business brought to the superintendent's attention.

The management team shall meet with the board upon the board's request or superintendent's recommendation to review overall operations of the school district and conditions affecting the management team. The management team shall have no relationship to the formal negotiating unit. In the event a member or members of the management team are unable to resolve a problem, a committee of one board member, one management team member, and the superintendent shall investigate the circumstances and make a recommendation. If the recommendation does not settle the matter, the board and the management team shall meet to resolve the matter. The board may seek the advice of outside management consultants to assist in resolving the matter.

Board members are encouraged to communicate their criticisms and concerns to the superintendent in the closed session.
