## ROLE OF AND GUIDING PRINCIPLES FOR EMPLOYEES

This series of the board policy manual is devoted to the board's goals and objectives for employees in the performance of their jobs. Employees provide a variety of important services for the children of the school district community. They may be teaching or assisting in the classroom, working in the office, maintaining the facilities, driving or repairing the school buses, or cooking lunches. Each employee plays a vital role in providing an equal opportunity for a quality education for students commensurate with the students' individual needs. While the teachers have the most direct impact on the formal instruction of students, all employees have an impact on the school environment by their dedication to their work and their actions. As role models for the students, employees shall promote a cooperative, enthusiastic, and supportive learning environment for the students.

In striving to achieve a quality education program, the board's goal is to obtain and retain qualified and effective employees. The board shall have complete discretion to determine the number, the qualifications, and the duties of the positions and the school district's standards of acceptable performance. It shall be the responsibility of the superintendent to make recommendations to the board in these areas prior to board action. The board recognizes its duty to bargain collectively with duly certified collective bargaining units. To the extent a group of employees has a recognized collective bargaining unit, the provisions of the master contract regarding such topics shall prevail.

Board policies in this series relating to general employees shall apply to employees regardless of their position as a licensed employee, classified employee, substitute or administrator. Board policies relating to licensed employees shall apply to positions that require a teaching license or administrator's certificate or other professional license, certificate or endorsement, unless administrative positions are specifically excluded from the policy or a more specific policy is in the 300 series, Administration. Classified employees' policies included in this series will apply to positions that do not fall within the definition of licensed employee.

## EQUAL EMPLOYMENT OPPORTUNITY

The West Hancock Community School District will provide equal opportunity to employees and applicants for employment in accordance with applicable equal employment opportunity and affirmative action laws, directives and regulations of federal, state and local governing bodies. Opportunity to all employees and applicants for employment includes hiring, placement, promotion, transfer or demotion, recruitment, advertising or solicitation for employment, treatment during employment, rates of pay or other forms of compensation, and layoff or termination. The school district will take affirmative action in major job categories where women, men, minorities and persons with disabilities are underrepresented. Employees will support and comply with the district's established equal employment opportunity and affirmative action policies. Employees will be given notice of this policy annually.

The board will appoint an affirmative action coordinator. The affirmative action coordinator will have the responsibility for drafting the affirmative action plan. The affirmative action plan will be reviewed by the board at least every two years.

Individuals who file an application with the school district will be given consideration for employment if they meet or exceed the qualifications set by the board, administration, and Iowa Department of Education for the position for which they apply. In employing individuals, the board will consider the qualifications, credentials, and records of the applicants without regard to race, color, creed, sex, national origin, religion, age, sexual orientation, gender identity, marital status, or disability. In keeping with the law, the board will consider the veteran status of applicants.

Advertisements and notices for vacancies within the district will contain the following statement: "The West Hancock Community School District is an EEO/AA employer." The statement will also appear on application forms.

Inquiries by employees or applicants for employment regarding compliance with equal employment opportunity and affirmative action laws and policies, including but not limited to complaints of discrimination, will be directed to the Affirmative Action Coordinator by writing to the Affirmative Action Coordinator, West Hancock Community School District, P.O. Box 420, Britt, Iowa 50423; or by telephoning 641-843-3833.

## EQUAL EMPLOYMENT OPPORTUNITY

Inquiries by employees or applicants for employment regarding compliance with equal employment opportunity and affirmative action laws and policies, including but not limited to complaints of discrimination, may also be directed in writing to the Equal Employment Opportunity Commissions, Milwaukee Area Office, Reuss Federal Plaza, 310 West Wisconsin Ave., Suite 800, Milwaukee, WI, 53203-2292, (800) 669-4000 or TTY (800) 669-6820. <http://www.eeoc.gov/field/milwaukee/index.cfm> or the Iowa Civil Rights Commission, 400 E. 14<sup>th</sup> Street, Des Moines, Iowa, 50319-1004, (515) 281-4121 or 1-800-457-4416, <http://www.state.ia.us/government/crc/index.html>. This inquiry or complaint to the federal office may be done instead of, or in addition to, an inquiry or complaint at the local level.

Further information and copies of the procedures for filing a complaint are available in the school district's central administrative office and the administrative office in each attendance center.

## EMPLOYEE CONFLICT OF INTEREST

Employees' use of their position with the school district for financial gain is considered a conflict of interest with their position as employees and may subject employees to disciplinary action.

Employees have access to information and a captive audience that could award the employee personal or financial gain. No employee may solicit other employees or students for personal or financial gain to the employee without the approval of the superintendent. If the approval of the superintendent is given, the employee must conduct the solicitations within the conditions set by the superintendent. Further, the superintendent may, upon five days notice, require the employee to cease such solicitations as a condition of continued employment.

Employees will not act as an agent or dealer for the sale of textbooks or other school supplies. Employees will not participate for personal financial remuneration in outside activities wherein their position on the staff is used to sell goods or services to students or to parents. Employees will not engage in outside work or activities where the source of information concerning the customer, client or employer originates from information obtained because of the employee's position in the school district.

It will also be a conflict of interest for an employee to engage in any outside employment or activity which is in conflict with the employee's official duties and responsibilities. In determining whether outside employment or activity of an employee creates a conflict of interest, situations in which an unacceptable conflict of interest is deemed to exist will include, but not be limited to, any of the following:

- (1) The outside employment or activity involves the use of the school district's time, facilities, equipment and supplies or the use of the school district's badge, uniform, business card or other evidences of office to give the employee or the employee's immediate family an advantage or pecuniary benefit that is not available to other similarly situated members or classes of members of the general public. For purposes of this section, a person is not "similarly situated" merely by being related to an employee who is employed by the school district.
- (2) The outside employment or activity involves the receipt of, promise of, or acceptance of more or other consideration by the employee or a member of the employee's immediate family from anyone other than the school district for the performance of any act that the employee would be required or expected to perform as part of the employee's regular duties or during the hours during which the employee performs service or work for the school district.
- (3) The outside employment or activity is subject to the official control, inspection, review, audit, or enforcement authority of the employee during the performance of the employee's duties.

## EMPLOYEE CONFLICT OF INTEREST

If the outside employment or activity is employment or activity in (1) or (2) above, the employee must cease the employment of or activity. If the activity or employment falls under (3), then the employee must:

- Cease the outside employment or activity; or
- Publicly disclose the existence of the conflict and refrain from taking any official action or performing any official duty that would detrimentally affect or create a benefit for the outside employment or activity. Official action or official duty includes, but is not limited to, participating in any vote, taking affirmative action to influence any vote, or providing any other official service or thing that is not available generally to members of the public in order to further the interests of the outside employment or activity.

When procurement is supported by Federal Child Nutrition funds, employees will not participate in the selection, award, or administration of a contract if there is a real or apparent conflict of interest in the contract. Contract, for purposes of this paragraph, includes a contract where the employee, employee's immediate family, partner, or a non-school district employer of these individuals is a party to the contract.

It is the responsibility of each employee to be aware of and take the necessary action to eliminate a potential conflict of interest should it arise.

More than one family member may be an employee of the school district. It is within the discretion of the superintendent to allow one family member employed by the school district to supervise another family member employed by the school district subject to the approval of the board.

The employment of more than one individual in a family is on the basis of their qualifications, credentials and records.

## EMPLOYEE RECORDS

The school district will maintain personnel records on employees. The records are important for the daily administration of the educational program, for implementing board policy, for budget and financial planning, and for meeting state and federal requirements.

The records will include, but not be limited to, records necessary for the daily administration of the school district, salary records, evaluations, application for employment, references, and other items needed to carry out board policy. Employee personnel files are school district records and are considered confidential records and therefore are not generally open to public inspection or accessibility. Only in certain limited instances, when the employee has given a signed consent, will employee personnel records be accessible to individuals other than the employee or authorized school officials.

Employees may have access to their personnel files, with the exception of letters of reference, and copy items from their personnel files at a time mutually agreed upon between the superintendent and the employee. The school district may charge a reasonable fee for each copy made. However, employees will not be allowed access to the employment references written on behalf of the employee. Board members will generally only have access to an employee's file when it is necessary because of an employee related matter before the board.

It is the responsibility of the superintendent to keep employees' personnel files current. The board secretary is the custodian of employee records.

It is the responsibility of the superintendent to develop administrative regulations for the implementation of this policy.

TRANSPORTING OF STUDENTS BY EMPLOYEES

Generally, transportation of students is in a motor vehicle owned by the school district and driven by an employee. In some cases, it may be more economical or efficient for the school district to allow an employee of the school district to transport the students in the employee's motor vehicle.

Employees who transport students for school purposes must have the permission of the superintendent.

This policy statement applies to transportation of students for school purposes in addition to the regular bus route transporting students to and from their designated attendance center.

## EMPLOYEE TRAVEL COMPENSATION

Employees traveling on behalf of the school district and performing approved school district business will be reimbursed for their actual and necessary expenses. Actual and necessary travel expenses will include, but not be limited to, transportation and/or mileage costs, lodging expenses, meal expenses and registration costs.

### Travel Outside the School District

Travel outside of the school district must be pre-approved. Pre-approval will include an evaluation of the necessity of the travel, the reason for the travel and an estimate of the cost of the travel to qualify as approved school district business. Travel outside the school district by employees, other than the superintendent, is approved by the superintendent or immediate supervisor. Travel outside the school district by the superintendent shall be approved by the board president.

Reimbursement for actual and necessary expenses will be allowed for travel outside the school district if the employee received pre-approval for the travel. Prior to reimbursement of actual and necessary expenses, the employee must provide the school district with a detailed, itemized receipt, indicating the date, purpose and nature of the expense for each claim item. In exceptional circumstances, the superintendent may allow a claim without proper receipt. Written documentation explaining the exceptional circumstances is maintained as part of the school district's record of the claim.

Failure to have a detailed, itemized receipt will make the expense a personal expense. Personal expenses, including mileage, in excess of that required for the trip are reimbursed by the employee to the school district no later than 10 working days following the date of the expense.

Reimbursement for actual and necessary expenses for travel outside the school district will be limited to the pre-approved expenses. Pre-approved expenses for registration are limited to the actual cost of the registration.

Pre-approved expenses for transportation within three-hundred miles of the school district administrative office shall be by automobile. If a school district vehicle is not available, the employee will be reimbursed at the rate annually determined by the board. Travel to/from work is never a reimbursable travel expense. Travel costs for a spouse or anyone other than the district employee shall be a personal expense not reimbursable by the district.

Travel Within the School District

Employees that make more than 1 trip per day from one building to another because of academic assignment or other assigned duties shall apply for a flat fee mileage reimbursement on an individual basis through the administration. Extra-curricular assignments and unassigned travel between buildings are excluded from consideration. Mileage will be determined by the Board of Education but shall not exceed the limit determined by State Law. A trip is defined as the travel from one building to another and then because of a required assignment must return to the first building.

Qualified travel reimbursement would be if an employee goes to building A from his or her home, then goes to Building B and then returns to building A. The return trip from building B to building A would be one trip.

Travel allowances within the district will be provided only after board approval. Employees who are allowed an ~~in-school~~ within district travel allowance will have the amount of the allowance actually received during each calendar year included on the employee's W-2 form as taxable income according to the Internal Revenue Code.

Use of District-Owned Vehicles

Certain district employment positions may require regular and extensive travel. Due to the required duties of these positions, the district may provide certain positions with use of district-owned vehicles. Employees who utilize district-owned vehicles during the course of their job duties are fulfilling the public purpose of meeting the needs of the educational community in an efficient, and time-sensitive manner. District-owned vehicles are purchased and maintained with public money and must be used strictly in accordance with fulfilling a public purpose. These vehicles represent the district in carrying out its educational mission. Therefore, district-owned vehicles will be clearly marked at all times to identify the district.

The superintendent is responsible for developing administrative regulations regarding actual and necessary expenses, in-school district travel allowances and assignment and proper use of school district vehicles. The administrative regulations will include the appropriate forms to be filed for reimbursement to the employee from the school district and the procedures for obtaining approval for travel outside of and within the school district.

## CREDIT AND PROCUREMENT CARDS

Employees may use school district credit cards and/or procurement cards (p-cards) for the actual and necessary expenses incurred in the performance of work-related duties. Actual and necessary expenses incurred in the performance of work-related duties include, but are not limited to travel expenses related to professional development or fulfillment of required job duties, fuel for school district transportation vehicles used for transporting students to and from school and for school-sponsored events, payment of claims related to professional development of the board and employees, and other expenses required by employees and the board in the performance of their duties.

Employees and officers using a school district credit or procurement card must submit a detailed receipt in addition to a credit card or procurement receipt indicating the date, purpose and nature of the expense for each claim item. Failure to provide a proper receipt will make the employee responsible for expenses incurred. Those expenses are reimbursed to the school district no later than ten working days following use of the school district's credit or procurement card. In exceptional circumstances, the superintendent or board may allow a claim without proper receipt. Written documentation explaining the exceptional circumstances is maintained as part of the school district's record of the claim.

The school district may maintain a school district credit card for actual and necessary expenses incurred by employees and officers in the performance of their duties. The superintendent may maintain a school district credit card for actual and necessary expenses incurred in the performance of the superintendent's duties. The transportation director may maintain a school district credit card for fueling school district transportation vehicles in accordance with board policy.

It is the responsibility of the superintendent to determine whether the school district credit or procurement card use is for appropriate school business. It is the responsibility of the board to determine through the audit and approval process of the board whether the school district credit or procurement card used by the superintendent and the board is for appropriate school business.

The superintendent is responsible for developing administrative regulations regarding actual and necessary expenses and use of a school district credit or procurement card. The administrative regulations will include the appropriate forms to be filed for obtaining a credit or procurement card.

These employees may purchase and/or maintain cell phones and related equipment, at their own expense, to make themselves accessible to the district and to conduct district business more efficiently. The superintendent has discretion to determine which district positions qualify for a cell phone allowance. The monthly cell phone allowance amount shall be established by the superintendent and/or the board. Employees who utilize their personal cell phones shall do so in accordance with this policy and accompanying procedures. The cell phone allowance is neither permanent nor guaranteed. Requests for reimbursement, including the highlighted billing statement must be submitted within thirty (30) days of the end of the time period for which reimbursement is requested. Requests submitted after the reimbursement deadline has passed will be denied.

## **STAFF TECHNOLOGY USE/SOCIAL NETWORKING**

Computers, electronic devices and other technology are a powerful and valuable education and research tool and, as such, are an important part of the instructional program. In addition, the school district depends upon technology as an integral part of administering and managing the schools' resources, including the compilation of data and recordkeeping for personnel, students, finances, supplies and materials. This policy outlines the board's expectations in regard to these different aspects of the school district's computer resources. Employees must conduct themselves in a manner that does not disrupt from or disrupt the educational process and failure to do so will result in discipline, up to and including, discharge.

### General Provisions

The superintendent is responsible for designating a technology consultant or technology director who will oversee the use of school district technology resources. The technology consultant or technology director will prepare in-service programs for the training and development of school district staff in technology skills, appropriate use of technology and for the incorporation of technology use in subject areas.

The superintendent, working with appropriate staff, shall establish regulations governing the use and security of the school district's technology resources. The school district will make every reasonable effort to maintain the security of the district networks and devices. All users of the school district's technology resources, including students, staff and volunteers, shall comply with this policy and regulation, as well as others impacting the use of school equipment and facilities. Failure to comply may result in disciplinary action, up to and including discharge, as well as suspension and/or revocation of technology access privileges.

Usage of the school district's technology resources is a privilege, not a right, and that use entails responsibility. District-owned technology; and district maintained social media and e-mail accounts are the property of the school district. Therefore, users of the school district's computer network must not expect, nor does the school district guarantee, privacy for e-mail or use of the school district's computer network including web sites visited. The school district reserves the right to access and view any material stored on school district equipment or any material used in conjunction with the school district's computer network.

The superintendent, working with the appropriate staff, shall establish procedures governing management of technology records in order to exercise appropriate control over computer records, including financial, personnel and student information. The procedures will address at a minimum:

- passwords,
- system administration,
- separation of duties,
- remote access,
- data back-up (including archiving of e-mail),
- record retention, and
- disaster recovery plans.

## STAFF TECHNOLOGY USE/SOCIAL NETWORKING

### Social Networking or Other External Web Sites

For purposes of this policy any web site, other than the school district web site or school-school district sanctioned web sites, are considered external web sites. Employees shall not post confidential or proprietary information, including photographic images, about the school district, its employees, students, agents or others on any external web site without consent of the superintendent. The employee shall adhere to all applicable privacy and confidentiality policies adopted by the school district when on external web sites. Employees shall not use the school district logos, images, iconography, etc. on external web sites. Employees, students and volunteers need to realize that the Internet is not a closed system and anything posted on an external site may be viewed by others, all over the world. Employees, students and volunteers who don't want school administrators to know their personal information, should refrain from exposing it on the Internet. Employees, who would like to start a social media site for school district sanctioned activities, should contact the superintendent.

It is the responsibility of the superintendent to develop administrative regulations implementing this policy.

- Employees will be issued a school district e-mail account.
- Each individual in whose name an access account is issued is responsible at all times for its proper use.
- Employees are expected to review their e-mail regularly throughout the day, and shall reply promptly to inquiries with information that the employee can reasonably be expected to provide.
- Communications with parents and/or students must be made through school email, unless in the case of an emergency,
- Employees may access the Internet for education-related and/or work-related activities.

- All network users are expected to abide by the generally accepted rules of network etiquette. This includes being polite and using only appropriate language. Abusive language, vulgarities and swear words are all inappropriate.
- Network users identifying a security problem on the school district's network must notify appropriate staff. Any network user identified as a security risk or having a history of violations of school district computer use guidelines may be denied access to the school district's network.
- Employees are representatives of the district at all times and must model appropriate character, both on and off the worksite. This applies to material posted with personal devices and on personal websites and/or social media accounts. Posted messages or pictures which diminish the professionalism or discredit the capacity to maintain respect of students and parents may result in disciplinary action up to and including termination if the content posted is found to be disruptive to the educational environment and adversely impacts the employee's ability to effectively serve as a role model or perform his/her job duties for the district. The type of material that would affect an employee's ability to serve as an appropriate role model includes, but is not limited to, text or depictions involving hate speech, nudity, obscenity, vulgarity or sexually explicit content. Employee communications with students should be limited as appropriate. If there is any uncertainty, employees should consult their building administrator.

## STAFF TECHNOLOGY USE REGULATION/SOCIAL NETWORKING

### Prohibited Activity and Uses

- Using the network for commercial activity, including advertising, or personal gain.

### Other Technology Issues

Employees with personal cell phones should avoid using their phones for school district business. Employees should contact students and their parents through the school district technology or phone system unless in the case of an emergency or with prior consent of the principal. Employees should not release their cell phone number, personal e-mail address, etc. to students or their parents. Employees, who are coaches or sponsors of activities, may create a text list of students and parents in order to communicate more effectively as long as the texts go to all students and the principal is included in the text address list.

## CHILD ABUSE REPORTING

In compliance with state law and to provide protection to victims of child abuse, the board believes incidents of alleged child abuse should be reported to the proper authorities. All licensed school employees, teachers, coaches and paraeducators are mandatory reporters as provided by law and are to report alleged incidents of child abuse they become aware of within the scope of their professional duties.

When a mandatory reporter suspects a student is the victim of child abuse, the mandatory reporter shall make an oral report of the suspected child abuse to the Iowa Department of Human Services within 24 hours of becoming aware of the abusive incident and shall make a written report to the Iowa Department of Human Services within 48 hours following the oral report. If the mandatory reporter believes the child is in immediate danger, the local law enforcement agency will also be notified.

Within six months of their initial employment, mandatory reporters will take a two-hour training course involving the identification and reporting of child abuse, or submit evidence they've taken the course within the previous three years.

After July 1, 2019, employees who have previously taken mandatory reporter training will be required to take the two-hour training course before the expiration of their current training certificate. Once the training course has been taken, the certificate will remain valid for three years. Employees who have taken the post-July 1, 2019 two-hour training course will take the one-hour follow up training course every three years and prior to the expiration of their certificate.

## CHILD ABUSE REPORTING REGULATION

Iowa law requires licensed employees to report to the Iowa Department of Human Services (DHS) instances of suspected child abuse which they become aware of within the scope of their professional duties.

The law further specifies that a licensed employee who knowingly or willfully fails to report a suspected case of child abuse is guilty of a simple misdemeanor and that the licensed employee may be subject to civil liability for damages caused by the failure to report.

Employees participating in good faith in the making of a report or in a judicial proceeding that may result from the report, are immune from liability.

### Child Abuse Defined

"Child abuse" is defined as:

- Any non-accidental physical injury, or injury which is at variance with the history given of it, suffered by a child as the result of the acts or omissions of a person responsible for the care of the child.
- The commission of a sexual offense with or to a child . . . as a result of the acts or omissions of the person responsible for the child. . . . Sexual offense includes sexual abuse, incest, and sexual exploitation of a minor.
- The failure on the part of a person responsible for the care of a child to provide for the adequate food, shelter, clothing or other care necessary for the child's welfare when financially able to do so or when offered financial or other reasonable means to do so. A parent or guardian legitimately practicing religious beliefs who does not provide specified medical treatment for a child for that reason alone will not be considered abusing the child.
- The acts or omissions of a person responsible for the care of a child which allow, permit or encourage the child to engage in acts prohibited pursuant to *Iowa Code*, section 725.1 which deals with prostitution.
- Any mental injury to a child's intellectual or psychological capacities evidenced by an observable and substantial impairment in the child's ability to function within the child's normal range of performance and behavior as the result of the acts or omissions of a person responsible for the care of the child, if the impairment is diagnosed by a licensed physician or qualified mental health professional.
- An illegal drug is present in a child's body as a direct and foreseeable consequence of the acts of omissions of the person responsible for the care of the child.
- The person responsible for the care of a child has, in the presence of the child, as defined in section 232.2, subsection 6, paragraph "p", manufactured a dangerous substance, as defined in section 232, subsection 6, paragraph "p", or in the presence of the child possesses a product containing ephedrine or its salts, optical isomers or its salts, pseudoephedrine or its salts, with the intent to use the product as a precursor or an intermediary to a dangerous substance.
- The commission of bestiality in the presence of a minor under section 717C.1 by a person who resides in a home with a child, as a result of the acts of omissions of a person responsible for the care of the child.

Teachers in public schools are not "persons responsible for the care of the child" under this definition.

## CHILD ABUSE REPORTING REGULATION

### Reporting Procedures

Licensed employees, including teachers and school nurses, are required to report orally, within twenty-four hours to the Iowa Department of Human Services (DHS) when the employee reasonably believes a child has suffered from abuse within the scope of employment. Within forty-eight hours of an oral report, a written report must be filed with DHS.

Each report should contain as much of the following information as can be obtained within the time limit. However, the law specifies a report will be considered valid even if it does not contain all of the following information:

- name, age, and home address of the child;
- name and home address of the parents, guardians or other persons believed to be responsible for the care of the child;
- the child's present whereabouts if not the same as the parent's or other person's home address;
- description of injuries, including evidence of previous injuries;
- name, age, and condition of other children in the same home;
- any other information considered helpful; and,
- name and address of the person making the report.

Board policy states it is not the responsibility of employees to prove that a child has been abused or neglected. Employees should not take it upon themselves to investigate the case or contact the family of the child. DHS is responsible for investigating the incident of alleged abuse.

ABUSE OF STUDENTS BY SCHOOL DISTRICT EMPLOYEES

Physical or sexual abuse of students, including inappropriate and intentional sexual behavior, by employees will not be tolerated. The definition of employees for the purpose of this policy includes not only those who work for pay but also those who are volunteers of the school district under the direction and control of the school district. Employees found in violation of this policy will be subject to disciplinary action up to and including discharge.

The school district will respond promptly to allegations of abuse of students by school district employees by investigating or arranging for the investigation of an allegation. The processing of a complaint or allegation will be handled confidentially to the maximum extent possible. Employees are required to assist in the investigation when requested to provide information and to maintain the confidentiality of the reporting and investigation process.

The school district has appointed a Level I investigator and alternate Level I investigator. The school district has also arranged for a trained, experienced professional to serve as the Level II investigator. The Level I investigator and alternate will be provided training in the conducting of an investigation at the expense of the school district. The names of the investigators are listed in the student handbook published annually in the local newspaper and posted in all school facilities.

The district will use forms provided by the Department of Education and can be found on their website.

The superintendent is responsible for drafting administrative regulations to implement this policy.

## ABUSE OF STUDENTS BY SCHOOL DISTRICT EMPLOYEES REGULATION

An individual who has knowledge an employee has physically or sexually abused a student may immediately report it to AEA 267 who is the school district's Level I investigator. "Employee" means one who works for pay or as a volunteer under the direction and control of the school district. The report is written, signed and witnessed by a person of majority age. The witness may be the Level I investigator. The reporter is the individual filing the report. The report will contain the following:

- The full name, address, and telephone number of the person filing.
- The full name, age, address, and telephone number, and attendance center of the student.
- The name and place of employment of the employee who allegedly committed the abuse.
- A concise statement of the facts surrounding the incident, including date, time, and place of occurrence, if known.
- A list of possible witnesses by name, if known.
- Names and locations of persons who examined, counseled or treated the student for the alleged abuse, including the dates on which those services were provided, if known.

Upon request, the Level I investigator may assist the reporter in completing the report. An incomplete report will not be rejected unless the missing information would render the investigation futile or impossible. An employee receiving a report of alleged abuse of a student by an employee will pass the report to the investigator and will keep the report confidential to the maximum extent possible. In performing the investigation, the investigator will have access to the educational records of the alleged student victim as well as access to the student for interviewing purposes.

In order for the school district to have jurisdiction over the acts and to constitute a violation of the law, acts of the employee must be alleged to have occurred on school grounds, on school time, at a school-sponsored activity, or in a school-related context. However, the student need not be a student in the school district. The student can be from another school district. To be investigable, the written report must include basic information showing that the victim of the alleged abuse is or was a student at the time of the incident, that the alleged act of the employee resulted in injury or otherwise meets the definition of abuse in these rules, and that the person responsible for the act is currently an employee. If the report is not investigable due to lack of jurisdiction, the investigator will dismiss the complaint and inform the reporter of other options available. Other options available to the reporter include contacting law enforcement authorities, private counsel, or the Iowa Board of Educational Examiners in the case of a licensed employee.

If the Level I investigator believes the student is in imminent danger if continued contact is permitted between the employee and the student, the Level I investigator may:

- temporarily remove the student from contact with the employee;
- temporarily remove the employee from service; or,
- take other appropriate action to ensure the student's safety.

The Level I investigator will have access to the educational records of the student and access to the student for purposes of interviewing the student about the report.

## ABUSE OF STUDENTS BY SCHOOL DISTRICT EMPLOYEES REGULATION

### Physical Abuse Allegations

When physical abuse is reported, the Level I investigator will make copies of the report and give a copy to the person filing the report, the students' parents and the immediate supervisor of the employee named in the report. The employee named in the report will not receive a copy of the report until the employee is initially interviewed.

The Level I investigator will use discretion in handling the information received regarding an investigation of abuse by an employee, and those persons involved in the investigation will not discuss information regarding the complaint outside the investigation. The entire investigative procedure will be thoroughly explained, including the confidential nature of the proceedings, to the student and other persons involved in the investigation.

Within five days of receipt of an investigable report, the Level I investigator will complete an informal investigation. The informal investigation will consist of interviews with the student, the employee and others who may have knowledge of the alleged incident. If the Level I investigator determines that the allegations in the report are founded and that immediate and professional investigation is necessary, the Level I investigator may defer further investigation and contact appropriate law enforcement officials, the student's parents and the person filing the report. Within fifteen days of receipt of the report, the Level I investigator will complete a written investigative report, unless the investigation was temporarily deferred.

The written investigative report will include:

1. The name, age, address and attendance center of the student named in the report.
2. The name and address of the student's parent or guardian and the name and address of the person filing the report, if different from the student's parent or guardian.
3. The name and work address of the employee named in the report as allegedly responsible for the abuse of the student.
4. An identification of the nature, extent and cause, if known, of any injuries or abuse to the student named in the report.
5. A general review of the investigation.
6. Any actions taken for the protection and safety of the student.
7. A statement that, in the investigator's opinion, the allegations in the report are either:
  - Unfounded. (*It is not likely that an incident, as defined in these rules, took place*), or
  - Founded. (*It is likely that an incident took place.*)
8. The disposition or current status of the investigation.
9. A listing of the options available to the parents or guardian of the student to pursue the allegations. These options include, but are not limited to:
  - Contacting law enforcement officials.
  - Contacting private counsel for the purpose of filing a civil suit or complaint.
  - Filing a complaint with the Iowa Board of Educational Examiners if the employee is a licensed employee.

## ABUSE OF STUDENTS BY SCHOOL DISTRICT EMPLOYEES REGULATION

The investigator will retain the original and provide a copy of the written investigative report to the school employee named in the report, the employee's supervisor and the student's parent or guardian. The person filing the report, if not the student's parent or guardian, is notified only that the Level I investigation has been concluded and of the disposition or anticipated disposition of the case.

It is the responsibility of the Level I investigator to determine whether it is more likely than not that an incident of abuse as defined in the rules took place between the student and employee. The Level I investigator does not make the determination of whether the use of physical contact was appropriate or whether any of the exceptions apply. That is the responsibility of the Level II investigator. Upon completion of the report, if the Level I investigator determines the allegations of physical abuse are founded and serious, the Level I investigator will notify law enforcement authorities. If the allegations are founded but the physical abuse is not of a serious nature, the Level I investigator will refer the case on to the Level II investigator.

The Level II investigator will review the Level I investigator's final investigative report and conduct further investigation. The Level II investigative report will state the conclusion as to the occurrence of the alleged incident, the applicability of exceptions, the reason for the contact or force used, and recommendations regarding the need for further investigation. In determining the applicability of the exceptions or the reasonableness of the contact or force used, the Level II investigator will use the following definitions:

Physical abuse is non-accidental physical injury to the student as a result of the action of an employee. Injury occurs when evidence of it is still apparent at least twenty-four hours after its occurrence. The following do not constitute physical abuse, and no employee is prohibited from:

- a. Using reasonable and necessary force, not designed or intended to cause pain:
  - (1) To quell a disturbance or prevent an act that threatens physical harm to any person.
  - (2) To obtain possession of a weapon or other dangerous object within a pupil's control.
  - (3) For the purposes of self-defense or defense of others as provided for in Iowa Code § 704.3.
  - (4) For the protection of property as provided for in Iowa Code §§ 704.4, .5.
  - (5) To remove a disruptive pupil from class, or any area of school premises or from school-sponsored activities off school premises.
  - (6) To prevent a student from the self-infliction of harm.
  - (7) To protect the safety of others.
  
- b. Using incidental, minor, or reasonable physical contact to maintain order and control. In determining the reasonableness of the contact or force used, the following factors are considered:
  - a. The nature of the misconduct of the student, if any, precipitating the physical contact by the school employee.
  - b. The size and physical condition of the student.
  - c. The instrumentality used in making the physical contact.
  - d. The motivation of the school employee in initiating the physical contact.
  - e. The extent of injury to the student resulting from the physical contact.

## ABUSE OF STUDENTS BY SCHOOL DISTRICT EMPLOYEES REGULATION

"Reasonable force" is that force and no more which a reasonable person, in like circumstances, would judge to be necessary to prevent an injury or loss and can include deadly force if it is reasonable to believe that such force is necessary to avoid injury or risk to one's life or safety or the life or safety of another, or it is reasonable to believe that such force is necessary to resist a like force or threat.

Upon completion of the Level II investigation, the Level I investigator will forward copies of the Level II investigative report to the employee, the employee's immediate supervisor and the student's parent. The Level I investigator will notify the person filing the report of the current status of the case.

If the Level II investigator's report or law enforcement officials conclude abuse occurred, or the employee admits the violation, or the employee has surrendered the employee's certificate or license, the Level I investigator will file a complaint with the Iowa Board of Educational Examiners. The Level I investigator will also arrange for counseling services for the student if the student or student's parents request counseling services.

### Sexual Abuse

Sexual abuse is defined as including sexual acts involving a student, acts that encourage the student to engage in prostitution, as well as inappropriate, intentional sexual behavior or sexual harassment by the employee toward a student. "Sexual harassment" is defined as unwelcome sexual advances, requests for sexual favors or other verbal or physical conduct of a sexual nature when:

1. Submission to the conduct is made either implicitly or explicitly a term or condition of the student's education or benefits;
2. Submission to or rejection of the conduct is used as the basis for academic decisions affecting that student; or
3. The conduct has the purpose or effect of substantially interfering with a student's academic performance by creating an intimidating, hostile or offensive education environment.

When sexual abuse is reported, the Level I investigator will make copies of the report and give a copy to the person filing the report, the students' parents and the immediate supervisor of the employee named in the report. The employee named in the report will not receive a copy of the report until the employee is initially interviewed. The designated investigator will not interview the school employee named in a report of sexual abuse until after a determination is made that jurisdiction exists, the alleged victim has been interviewed and a determination made that the investigation will not be deferred.

The investigator will notify the parent, guardian or legal custodian of a student in prekindergarten through grade six, of the date and time of the interview and of the right to be present or to see and hear the interview or send a representative in the parent's place. The Level I investigator will interview the student as soon as possible, but in no case later than five days from the receipt of a report or notice of the allegation of sexual abuse. The Level I investigator may record the interview electronically.

## ABUSE OF STUDENTS BY SCHOOL DISTRICT EMPLOYEES REGULATION

The Level I investigator will exercise discretion in the investigative process to preserve the privacy interests of the individuals involved. To the maximum extent possible, the investigator will maintain the confidentiality of the report.

It is the responsibility of the Level I investigator to determine whether it is more likely than not that an incident took place between the employee and the student. If the Level I investigator believes the employee committed a sex act with a student or sexually exploited a student, the Level I investigator will defer the Level I investigation and immediately notify law enforcement officials, the student's parents and the person filing the report.

If the Level I investigator determines an incident occurred, while not an illegal sex act with a student or sexual exploitation of a student, but where the employee engaged in inappropriate, intentional sexual behavior, further investigation is warranted. If further investigation is warranted, the Level I investigator may proceed to interview the employee and other individuals who may have knowledge of the circumstances contained in the report. Prior to interviewing other individuals who may have knowledge of the circumstance contained in the report, the Level I investigator will provide notice of the impending interview of student witnesses or the student who is in prekindergarten through grade six, to their parent, guardian, or legal custodian, and may provide notice to the parent or guardian of older students, prior to interviewing those students. The Level I investigator shall, if founded, arrange for the Level II investigator to further investigate the allegations.

Within fifteen days of receipt of the report or notice of alleged sexual abuse, the Level I investigator will complete a written investigative report unless the investigation was temporarily deferred. The written investigative report will include:

1. The name, age, address and attendance center of the student named in the report.
2. The name and address of the student's parent or guardian and the name and address of the person filing the report, if different from the student's parent or guardian.
3. The name and work address of the school employee named in the report as allegedly responsible for the abuse of the student.
4. An identification of the nature, extent and cause, if known, of any injuries or abuse to the student named in the report.
5. A general review of the investigation.
6. Any actions taken for the protection and safety of the student.
7. A statement that, in the investigator's opinion, the allegations in the report are either:
  - Unfounded. (*It is not likely that an incident, as defined in these rules, took place*), or
  - Founded. (*It is likely that an incident took place.*)
8. The disposition or current status of the investigation.
9. A listing of the options available to the parents or guardian of the student to pursue the allegations. These options include, but are not limited to:
  - Contacting law enforcement officials.
  - Contacting private counsel for the purpose of filing a civil suit or complaint.
  - Filing a complaint with the Iowa Board of Educational Examiners if the school employee is certificated.

## ABUSE OF STUDENTS BY SCHOOL DISTRICT EMPLOYEES REGULATION

The investigator will retain the original and provide a copy of the investigative report to the school employee named in the report, the school employee's supervisor and the named student's parent or guardian. The person filing the report, if not the student's parent or guardian, is notified only that the Level I investigation has been concluded and of the disposition or anticipated disposition of the case.

If the allegations are founded, the Level I investigation will refer the case to the Level II investigator. The Level II investigator will review the Level I investigator's final investigative report and conduct further investigation if necessary. The Level II investigative report will state conclusively as to the occurrence of the alleged incident, conclusively as to the nature of the sexual abuse and recommendations regarding the need for further investigation. Upon completion of the Level II investigation, the Level I investigator will forward copies of the Level II investigative report to the employee, the employee's immediate supervisor and the student's parent. The Level I investigator will notify the person filing the report of the current status of the case.

If the Level II investigator's report or law enforcement officials conclude sexual abuse occurred, or the employee admits the violation, or the employee has surrendered the employee's certificate or license, the Level I investigator will file a complaint on behalf of the district after obtaining the superintendent's signature with the Iowa Board of Educational Examiners. The Level I investigator will also arrange for counseling services for the student if the student or student's parents request counseling services.

In cases involving founded physical or sexual abuse by a licensed employee, the board will notify the Iowa Board of Educational Examiners. Information of unfounded abuse at Level I or Level II will not be kept in the employee's personnel file. If the Level I investigative report is founded but Level II is unfounded, then the Level I report is removed from the employee's permanent file. Notes, tapes memorandums and related materials compiled in the investigations must be kept for two years.

It is the responsibility of the board to annually identify a Level I and Level II investigator. The board will also designate annually an alternate Level I investigator, preferably of the opposite sex of the designated Level I investigator, to whom reports may also be made. The names and telephone numbers of the Level I investigator and the alternate Level I investigator is included in employee handbooks, student handbooks, annually published in the local newspaper, and prominently displayed in all school buildings.

EMPLOYEE OUTSIDE EMPLOYMENT

The board believes the primary responsibility of employees is to the duties of their position within the school district as outlined in their job description. The board considers an employee's duties as part of a regular, full-time position as full-time employment. The board expects such employees to give the responsibilities of their positions in the school district precedence over any other employment.

It is the responsibility of the superintendent to counsel employees, whether full-time or part-time, if, in the judgment of the superintendent and the employee's immediate supervisor, the employee's outside employment interferes with the performance of the employee's duties required in the employee's position within the school district.

The board may request the employee to cease the outside employment as a condition of continued employment with the school district.

## EMPLOYEE PHYSICAL EXAMINATIONS

The West Hancock CSD believes good health is important to job performance. School bus drivers will present evidence of good health upon initial hire and every other year in the form of a physical examination report, unless otherwise required by law or medical opinion. All other employees shall present evidence of good health, in the form of a post-offer, pre-employment physical examination report.

The cost of the initial examination will be paid by the employee. The form indicating the employee is able to perform the duties, with or without reasonable accommodation, for which the employee was hired, must be returned prior to the performance of duties. The cost of bus driver renewal physicals will be paid by the school district up to a maximum of \$75. The school district will provide the standard examination form to be completed by the personal physician of the employee or a certified medical examiner for bus drivers.

Employees whose physical or mental health, in the judgment of the administration, may be in doubt will submit to additional examinations to the extent job-related and consistent with business necessity, when requested to do so, at the expense of the school district.

The district will comply with occupational safety and health requirements as applicable to its employees in accordance with law.

## COMMUNICABLE DISEASES - EMPLOYEES

Employees with a communicable disease will be allowed to perform their customary employment duties provided they are able to perform the essential functions of their position and their presence does not create a substantial risk of illness or transmission to students or other employees. The term "communicable disease" will mean an infectious or contagious disease spread from person to person, or animal to person, or as defined by law.

Prevention and control of communicable diseases is included in the school district's bloodborne pathogens exposure control plan. The procedures will include scope and application, definitions, exposure control, methods of compliance, universal precautions, vaccination, post-exposure evaluation, follow-up, communication of hazards to employees and record keeping. This plan is reviewed annually by the superintendent and school nurse.

The health risk to immunodepressed employees is determined by their personal physician. The health risk to others in the school district environment from the presence of an employee with a communicable disease is determined on a case-by-case basis by the employee's personal physician, a physician chosen by the school district or public health officials.

An employee who is at work and who has a communicable disease which creates a substantial risk of harm to a student, coworkers, or others at the workplace shall report the condition to the superintendent at any time the employee is aware that the disease actively creates such risk.

Health data of an employee is confidential and it will not be disclosed to third parties. Employee medical records are kept in a file separate from their personal file.

It is the responsibility of the superintendent, in conjunction with the school nurse, to develop administrative regulations stating the procedures for dealing with employees with a communicable disease.

## HEPATITIS B VACCINE INFORMATION AND RECORD

### The Disease

Hepatitis B is a viral infection caused by the Hepatitis B virus (HBV) which causes death in 1-2% of those infected. Most people with HBV recover completely, but approximately 5-10% become chronic carriers of the virus. Most of these people have no symptoms, but can continue to transmit the disease to others. Some may develop chronic active hepatitis and cirrhosis. HBV may be a causative factor in the development of liver cancer. Immunization against HBV can prevent acute hepatitis and its complications.

### The Vaccine

The HBV vaccine is produced from yeast cells. It has been extensively tested for safety and effectiveness in large scale clinical trials.

Approximately 90 percent of healthy people who receive two doses of the vaccine and a third dose as a booster achieve high levels of surface antibody (anti-HBs) and protection against the virus. The HBV vaccine is recommended for workers with potential for contact with blood or body fluids. Full immunization requires three doses of the vaccine over a six-month period, although some persons may not develop immunity even after three doses.

There is no evidence that the vaccine has ever caused Hepatitis B. However, persons who have been infected with HBV prior to receiving the vaccine may go on to develop clinical hepatitis in spite of immunization.

### Dosage and Administration

The vaccine is given in three intramuscular doses in the deltoid muscle. Two initial doses are given one month apart and the third dose is given six months after the first.

### Possible Vaccine Side Effects

The incidence of side effects is very low. No serious side effects have been reported with the vaccine. Ten to 20 percent of persons experience tenderness and redness at the site of injection and low grade fever. Rash, nausea, joint pain, and mild fatigue have also been reported. The possibility exists that other side effects may be identified with more extensive use.

HEPATITIS B VACCINE INFORMATION AND RECORD

**CONSENT FORM OF HEPATITIS B VACCINATION**

I have knowledge of Hepatitis B and the Hepatitis B vaccination. I have had an opportunity to ask questions of a qualified nurse or physician and understand the benefits and risks of Hepatitis B vaccination. I understand that I must have three doses of the vaccine to obtain immunity. However, as with all medical treatment, there is no guarantee that I will become immune or that I will not experience side effects from the vaccine. I give my consent to be vaccinated for Hepatitis B.

I understand that due to my occupational exposure to blood or other potentially infectious materials I may be at risk of acquiring the Hepatitis B virus infection. I have been given the opportunity to be vaccinated with Hepatitis B vaccine at no charge to myself. However, I decline the Hepatitis B vaccination at this time. I understand that by declining this vaccine, I continue to be at risk of acquiring Hepatitis B, a serious disease. If in the future I continue to have occupational exposure to blood or other potentially infectious materials and I want to be vaccinated with the Hepatitis B vaccine, I can receive the vaccination series at no charge to me.

## UNIVERSAL PRECAUTIONS REGULATION

Universal precautions (UP) are intended to prevent transmission of infection, as well as decrease the risk of exposure for employees and students. It is not currently possible to identify all infected individuals, thus precautions must be used with every individual. UP pertain to blood and other potentially infectious materials (OPIM) containing blood. These precautions do not apply to other body fluids and wastes (OBFW) such as saliva, sputum, feces, tears, nasal secretions, vomitus and urine unless blood is visible in the material. However, these OBFW can be sources of other infections and should be handled as if they are infectious. The single most important step in preventing exposure to and transmission of any infection is anticipating potential contact with infectious materials in routine as well as emergency situations. Based on the type of possible contact, employees and students should be prepared to use the appropriate precautions prior to the contact. Diligent and proper hand washing, the use of barriers, appropriate disposal of waste products and needles, and proper decontamination of spills are essential techniques of infection control. All individuals should respond to situations practicing UP followed by the activation of the school response team plan. Using common sense in the application of these measures will enhance protection of employees and students.

### Hand Washing

Proper hand washing is crucial to preventing the spread of infection. Textured jewelry on the hands or wrists should be removed prior to washing and kept off until completion of the procedure and the hands are re-washed. Use of running water, lathering with soap and using friction to clean all hand surfaces is key. Rinse well with running water and dry hands with paper towels.

- Hands should be washed before physical contact with individuals and after contact is completed.
- Hands should be washed after contact with any used equipment.
- If hands (or other skin) come into contact with blood or body fluids, hands should be washed immediately before touching anything else.
- Hands should be washed whether gloves are worn or not and, if gloves are worn, after the gloves are removed.

### Barriers

Barriers anticipated to be used at school include disposable gloves, absorbent materials and resuscitation devices. Their use is intended to reduce the risk of contact with blood and body fluids as well as to control the spread of infectious agents from individual to individual. Gloves should be worn when in contact with blood, OPIM or OBFW. Gloves should be removed without touching the outside and disposed of after each use.

## UNIVERSAL PRECAUTIONS REGULATION

### Disposal of Waste

Blood, OPIM, OBFW, used gloves, barriers and absorbent materials should be placed in a plastic bag and disposed of in the usual procedure. When the blood or OPIM is liquid, semi-liquid or caked with dried blood, it is not absorbed in materials, and is capable of releasing the substance if compressed, special disposal as regulated waste is required. A band-aid, towel, sanitary napkin or other absorbed waste that does not have the potential of releasing the waste if compressed would not be considered regulated waste. It is anticipated schools would only have regulated waste in the case of a severe incident. Needles, syringes and other sharp disposable objects should be placed in special puncture-proof containers and disposed of as regulated waste. Bodily wastes such as urine, vomitus or feces should be disposed of in the sanitary sewer system.

### Clean up

Spills of blood and OPIM should be cleaned up immediately. The employee should:

- Wear gloves.
- Clean up the spill with paper towels or other absorbent material.
- Use a solution of one part household bleach to one hundred parts of water (1:100) or other EPA-approved disinfectant and use it to wash the area well.
- Dispose of gloves, soiled towels and other waste in a plastic bag.
- Clean and disinfect reusable supplies and equipment.

### Laundry

Laundry with blood or OPIM should be handled as little as possible with a minimum of agitation. It should be bagged at the location. If it has the potential of releasing the substance when compacted, regulated waste guidelines should be followed. Employees who have contact with this laundry should wear protective barriers.

### Exposure

An exposure to blood or OPIM through contact with broken skin, mucous membrane or by needle or sharp stick requires immediate washing, reporting and follow-up.

- Always wash the exposed area immediately with soap and water.
- If a mucous membrane splash (eye or mouth) or exposure of broken skin occurs, irrigate or wash the area thoroughly.
- If a cut or needle stick injury occurs, wash the area thoroughly with soap and water.

The exposure should be reported immediately, the parent or guardian is notified, and the person exposed contacts a physician for further health care.

## HAZARDOUS CHEMICAL DISCLOSURE

The board authorizes the development of a comprehensive hazardous chemical communication program for the school district to disseminate information about hazardous chemicals in the workplace.

Each employee will annually review information about hazardous substances in the workplace. When a new employee is hired or transferred to a new position or work site, the information and training, if necessary, is included in the employee's orientation. When an additional hazardous substance enters the workplace, information about it is distributed to all employees, and training is conducted for the appropriate employees. The superintendent will maintain a file indicating which hazardous substances are present in the workplace and when training and information sessions take place.

Employees who will be instructing or otherwise working with students will disseminate information about the hazardous chemicals with which they will be working as part of the instructional program.

It is the responsibility of the superintendent to develop administrative regulations regarding this program.

## HARASSMENT

Harassment of employees and students will not be tolerated in the school district. School district includes school district facilities, school district premises, and non-school property if the employee or student is at any school sponsored, school approved or school related activity or function, such as field trips or athletic events where students are under the control of the school district or where the employee is engaged in school business.

Harassment includes, but is not limited to, racial, religious, national origin, age, disability and sexual harassment. Harassment by board members, administrators, employees, parents, vendors, and others doing business with the school district is prohibited. Employees whose behavior is alleged to be in violation of this policy will be subject to the investigation procedure which may result in discipline, up to and including, discharge or other appropriate action. Other individuals whose behavior is alleged to be in violation of this policy will be subject to appropriate sanctions as determined and imposed by the superintendent or board.

Sexual harassment shall include, but not be limited to, unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature when:

- submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment;
- submission to or rejection of such conduct by an individual is used as the basis for employment decisions affecting such individual; or
- such conduct has the purpose or effect of unreasonably interfering with an individual's work performance or creating an intimidating, hostile, or offensive working environment.

Other types of harassment may include, but not be limited to, jokes, stories, pictures or objects that are offensive, tend to alarm, annoy, abuse or demean certain protected individuals and groups.

Employees and students who believe they have suffered harassment shall report such matters to the investigator for harassment complaints. However, claims regarding harassment may also be reported to the alternate investigator for harassment complaints.

Upon receiving a complaint, the investigator shall confer with the complainant to obtain an understanding and a statement of the facts. It shall be the responsibility of the investigator to promptly and reasonably investigate claims of harassment and to pass the findings on to the superintendent who shall complete such further investigation as deemed necessary and take such final action as deemed appropriate. Information regarding an investigation of harassment shall be confidential to the extent possible, and those individuals who are involved in the investigation shall not discuss information regarding the complaint outside the investigation process.

      - (b) The driver must submit to a breath alcohol test immediately.

## DRUG AND ALCOHOL TESTING PROGRAM REGULATION

- (5) The saliva testing device results are read two minutes, and no later than fifteen minutes, after the saliva testing device was activated.
- (6) The results of the screening alcohol test are shared with the driver.
- g. The driver and breath alcohol technician must sign the alcohol testing form following The breath alcohol technician provides the superintendent of schools with a copy of the breath alcohol testing form if written communication was not used to report the test results.

  - g. The driver forcefully blows into the evidentiary breath testing device mouthpiece for at least six seconds or until an adequate amount of breath has been obtained.
  - h. The confirmation alcohol test results, which are the final and official test results, are shared with the driver.
  - i. The driver and BAT must sign the alcohol testing form following completion of the alcohol test. Failure to sign the form after the alcohol test is not considered a refusal to test. However, in the remarks section of the form, the BAT notes the driver's refusal to sign.
  - j. The BAT informs the superintendent of schools of the results of the test in a confidential manner.
    - (1) An alcohol test result of less than 0.02 alcohol concentration is reported to the school district in a confidential manner and the driver may continue to perform a safety-sensitive function.

    - (1) A physician analyzes the driver's inability to provide adequate breath.
    - (2) Failure to provide adequate breath is considered a refusal to test unless the physician determines a medical condition caused the failure to provide adequate breath.
    - (3) A refusal of the driver to try a second time to provide adequate breath is considered a refusal to test.
- E. Drug Testing Procedures.
- 1. Driver's urine is tested for marijuana, cocaine, opiates, amphetamines and phencyclidine.
  - 2. A split specimen urine drug test, often called "split sample test," is used to conduct the drug test.
    - a. A negative drug test result allows the driver to continue to perform a safety-sensitive function.
    - b. A positive drug test result on the primary sample requires the driver to be removed from performing a safety-sensitive function.
    - c. A positive drug test result on the primary sample allows the driver an opportunity to request the split sample be tested by another certified laboratory only for the specific drug found in the primary sample. A negative drug test result on the split sample results in a negative drug test result.
    - d. The driver will be terminated for a positive drug test result.
  - 3. Drivers taking medication at a licensed medical practitioner's direction may perform a safety-sensitive function if the licensed medical practitioner determines there is not an adverse effect on performing a safety-sensitive function and the school district is informed in writing of the medication and the licensed medical practitioner's opinion.
    - (1) An alcohol test result of less than 0.02 alcohol concentration is reported to the school district in a confidential manner and the driver may continue to perform a safety-sensitive function.
    - (2) The BAT notifies the superintendent of schools immediately of confirmation alcohol test results of 0.02 alcohol concentration or more.
    - (3) The collection site person provides the superintendent of schools with a copy of the breath alcohol testing form if written communication was not used to report the test results.

    - a. Drug testing is conducted at a designated collection site unless the situation requires another location. Public restrooms can be used as collection sites in exceptional circumstances.
    - b. In the event privacy cannot be assured, privacy is provided to the extent practical. However, direct observation is allowed if:
      - (1) Reasons exist to believe the driver may alter or substitute the specimen.
      - (2) The driver presents a specimen with a temperature outside the allowed range and does not provide an oral body temperature or the oral body temperature varies from the specimen provided.
      - (3) The last specimen provided by the driver was determined by the laboratory to not meet specific gravity and urine creatinine concentration criteria.
      - (4) The collection site person observes conduct of the driver to substitute or adulterate the specimen.

DRUG AND ALCOHOL TESTING PROGRAM REGULATION

- c. Direct observation is approved by the supervisor of the collection site person or the designated school district representative. Non-medical personnel performing direct observation must be of the same gender as the driver.
- 5. Drug testing steps.
  - a. The superintendent of schools makes arrangements with the collection site for the test.
  - b. Once the driver is notified to submit to a drug test, the driver must complete the Alcohol/Drug Test Notification Form and proceed immediately to the collection site. The collection site person contacts the superintendent of schools immediately when a driver does not arrive at the specified time. Failure to arrive at the collection site in a timely manner is considered a refusal to test.
  - c. Upon arrival, the driver must provide a photo identification. Repeated failure of the driver to produce a photo identification is considered insubordination as well as a refusal to test. The driver may require the collection site person to provide proof of identification.
  - d. The driver may keep his or her wallet but must remove any unnecessary outer garments, purses, briefcases and similar items at the request of the collection site person.

    - (1) Drivers who cannot provide an adequate amount of urine receive instructions for drinking water and trying again.
    - (2) The drug test is stopped when the driver fails twice to provide an adequate amount of urine.
    - (3) Failure to provide adequate urine is considered a refusal to test unless the physician determines a medical condition caused the failure to provide adequate urine.
  - g. The specimen is kept in view of the driver and the collection site person.
  - h. Upon receipt of the specimen, the collection site person immediately, and in no event later than four minutes from the time of urination, measures the temperature of the specimen.
  - i. The driver may volunteer to have his or her oral temperature taken to provide evidence against alteration or substitution if there is some question about the temperature of the specimen.
  - j. The collection site person inspects the specimen for color and other signs of contaminants and notes any unusual findings in the remarks section of the chain of custody form.
  - k. Another specimen is required as soon as possible under direct observation if adulteration substitution is suspected by the collection site person. Specimens suspected of adulteration or substitution are also sent to the laboratory for testing.
  - l. The specimen is divided into the primary and the split specimen, sealed and labeled. The label is initialed by the driver.
  - m. The driver is required to read and sign the statement on the chain of custody form certifying the specimens are the driver's.
  - n. The collection site person is required to note on the chain of custody form any unusual behavior or appearance of the driver and any failure to cooperate.
  - o. The collection site person completes the chain of custody form and the driver signs the form indicating the collection is complete. Failure of the driver to sign the form after the drug test is not considered a refusal to test. However, the collection site person notifies the school district contact person and notes the driver's failure to sign on the form.

DRUG AND ALCOHOL TESTING PROGRAM REGULATION

- p. The specimens are packaged for shipping to the laboratory and are shipped immediately or placed in secure storage until they can be shipped.
- 6. Laboratory.
  - a. The laboratory used by the school district's drug and alcohol testing program is certified by the U.S. Department of Health and Human Services (DHHS). Certified laboratories meet the testing procedures, personnel and record keeping requirements of the law.
  - b. Upon arrival of the specimen at the laboratory, the split specimen is stored and the primary specimen is tested.
    - (1) A positive drug test result on the initial test of the primary specimen requires a confirmation drug test of the primary specimen.
    - (2) The split specimen is discarded if the primary specimen has a negative drug test result
- 7. Medical Review Officer (MRO) reviews drug test results.
  - a. The MRO may release drug testing records of a driver to unauthorized individuals only with the written consent of the driver.
  - b. The MRO keeps a record of negative drug test results and reports negative drug test results to the school district, usually within two working days.
  - c. The primary role of the MRO is to review and interpret positive drug test results to determine whether a legitimate explanation exists for the positive drug test result.
    - (1) After reviewing the chain of custody form and the laboratory drug test results, the MRO contacts the driver to discuss the positive drug test result prior to notifying the school district and to ask whether the driver requests a drug test of the split sample. The driver's request for a drug test of the split sample must be made within seventy-two hours of talking with the MRO.
    - (2) Upon request of the driver, the split specimen is sent to a second certified laboratory to test only for the drug found in the primary specimen.
    - (3) The MRO contacts the superintendent of schools for assistance if the driver cannot be reached.
    - (4) The superintendent of schools must confidentially inform the driver to contact the MRO.
    - (5) Upon contacting the driver, the superintendent of schools must inform the MRO that the driver was contacted.
    - (6) Drivers who cannot be contacted are placed on temporary medically unqualified status or medical leave.
  - d. The MRO may verify a positive drug test without talking to the driver if:
    - (1) The driver declines the opportunity to discuss the positive drug test.
    - (2) The driver fails to contact the MRO within five days after the superintendent of schools has contacted the driver.
    - (3) MRO verification of positive drug test results under these circumstances can be challenged by the driver if the driver presents the MRO with information documenting a serious illness, injury or other circumstances unavoidably preventing the driver from timely contacting the MRO. The MRO, based on this additional information, may find a legitimate explanation for the positive drug test result and declare the drug test negative.
  - e. The driver is notified of the drugs found in a positive drug test result by the MRO, the superintendent of schools or by certified mail to the driver's last known address.
  - f. The school district receives a written report of the negative and positive drug test results from the MRO.

## DRUG AND ALCOHOL TESTING PROGRAM REGULATION

### F. Pre-employment Testing.

1. Drivers shall submit to a drug test if a job offer is made. The job offer is contingent upon:
  - a. A negative drug test result; and
  - b. A signed written statement authorizing former employers to release all information on the driver related to drugs and alcohol.
2. Prior to allowing a driver to perform a safety-sensitive function, and no later than fourteen days after performing a safety-sensitive function, information must be obtained, or a good faith effort must have been made to obtain the information about the driver's drug and alcohol history.
  - a. The following information must be obtained about the driver for the two year period preceding the date of the application.
    - (1) An alcohol test results of 0.04 breath alcohol concentration or greater;
    - (2) Positive drug test results; and
    - (3) Refusals to be tested.
  - b. The information must be obtained, or a good faith effort made to obtain, the information is the driver is currently performing and will continue to perform a safety-sensitive function.
  - c. The information must be obtained or a good faith effort made to obtain the information if the driver performed a safety-sensitive function and is no longer employed by the school district.
  - d. The information does not need to be obtained if the driver did not perform a safety-sensitive function and is no longer employed by the school district.
  - e. The school district may obtain information held by the prior employer for the two-year period preceding the date of application even if the information came from other employers.
  - f. A good faith effort requires the school district to request and hopefully receive the information prior to the driver driving and no later than fourteen days after first driving by taking the following steps:
    - (1) Obtain the driver's written consent immediately after a conditional employment offer is made.
    - (2) Send a completed consent for Release of Information signed by the driver to prior employers via certified mail.
    - (3) Contact the prior employers' drug and alcohol testing program managers about the status of the request if no response is received within a reasonable period.
    - (4) Take appropriate action (i.e., follow-up with a SAP, terminate employment) if the information received, whether prior to or after the fourteen day period, requires.
    - (5) Document and maintain the documentation of the steps taken to obtain the information when it is not received or the prior employer refuses to submit the information.

### G. Random Testing.

1. Annually, ten percent of the average number of drivers are selected for random alcohol tests, and fifty percent of the average number of drivers are selected for random drug tests.
2. The drivers' identification numbers are selected by a scientific method giving each driver an equal chance to be selected.
3. Random tests are unannounced and spread throughout the year.
4. Drivers selected for random alcohol testing are notified just before, during or just after performing a safety-sensitive function. The school district documents why some, if any, drivers were selected but not notified.
5. Drivers selected for random drug testing are notified at any time. The school district must document why some, if any, drivers were selected but not notified.

## DRUG AND ALCOHOL TESTING PROGRAM REGULATION

6. Once the driver is notified of being selected for a random test, the driver must proceed immediately to the collection site. However, drivers performing a safety-sensitive function must safely stop and proceed to the collection site as soon as possible.
- H. Reasonable Suspicion Testing.
1. A driver may be required to submit to a reasonable suspicion drug test at any time.
  2. A driver may be required to submit to a reasonable suspicion alcohol test just before, during or just after the driver performs a safety-sensitive function or just before, during or just after the time the driver is required to be in compliance with the drug and alcohol testing program policy, its supporting administrative regulations or the law.
    - a. A reasonable suspicion alcohol test is performed within two hours and no later than eight hours of determining reasonable suspicion.
    - b. If the alcohol test is not given within two hours, the reasons for the delay must be documented.
    - c. If the alcohol test is not given within eight hours, attempts to test are stopped and the reason for not testing must be documented.
  3. A reasonable suspicion test request is made by an employee who received training to determine reasonable suspicion. The reasons for the reasonable suspicion must be documented within twenty four hours or prior to the release of the test results. If more than one employee trained to determine reasonable suspicion observes the driver, that employee must also document their reasons. The school district will provide transportation for the driver to the collection site for testing if reasonable suspicion exists.
- I. Post-Accident Testing.
1. Drivers are subject to both post-accident drug and alcohol testing as soon as possible after an accident in which:
    - a. A fatality, other than the driver, occurred.
    - b. The driver was cited **and** bodily injury occurred to a person who, as a result of the injury, required immediate medical treatment away from the scene of the accident; or
    - c. The driver was cited **and** one or more motor vehicles incurred disabling damage as a result of the accident, requiring a motor vehicle to be transported away from the accident scene by a tow truck or other motor vehicle.
      - (1) "Disabling damage" is damage which precludes the departure of a motor vehicle from the scene of the accident in its usual manner in daylight after simple repairs. It includes damage to motor vehicles that could have been driven but would have been further damaged if so driven.
      - (2) "Disabling damage" excludes damage which can be remedied temporarily at the scene of the accident without special tools or parts.
        - (a) Tire disablement without other damage even if no spare tire is available.
        - (b) Headlight or taillight damage.
        - (c) Damage to turn signals, horn, or windshield wipers which make them inoperative.
  2. Drivers must remain readily available for post-accident testing.
    - a. Drivers who leave the scene or who do not remain readily available are deemed to have refused to test.
    - b. Necessary medical treatment cannot and should not be denied to a driver waiting to complete post-accident drug and alcohol tests.
  3. Alcohol testing requirements.

## DRUG AND ALCOHOL TESTING PROGRAM REGULATION

- a. The alcohol test is administered within two hours and no later than eight hours of the accident.
  - b. The reasons for administering the test later than two hours after the accident must be documented.
  - c. The reasons for not administering the test within eight hours of the accident must be documented.
  - d. Drivers are prohibited from consuming alcohol for eight hours after the accident or until the alcohol test is completed.
4. Drug testing requirements.
- a. The drug test is administered as soon as possible and no later than 32 hours after the accident.
  - b. The reasons for not administering the test must be documented.
5. Results of drug or alcohol testing conducted by law enforcement officers or other officials on the scene with independent authority to conduct such tests are presumed valid if the testing conforms with the law. The school district must receive a copy of the results to use them.
- J. School district responsibilities.
1. Provide drivers with information on the drug and alcohol testing requirements of the drug and alcohol testing program policy, its supporting administrative regulations and the law, including the driver's obligations.
  2. Supervisors of drivers or employees designated to determine reasonable suspicion must receive sixty minutes of training on alcohol misuse and sixty minutes of training on drug use. The training must address the physical, behavioral, speech and performance indicators of probable alcohol misuse and drug use. The reasonable suspicion training certificate must be maintained by the school district until the employee leaves employment of the school district or is no longer authorized to make reasonable suspicion determination.
  3. Provide drivers with instructions prior to the driver operating a school vehicle to enable the driver to comply with the drug and alcohol testing requirements.
  4. Disallow drivers to report to work or perform a safety-sensitive function when the school district has actual knowledge of a driver's drug use whether or not a drug test was conducted.
  5. Disallow drivers to report to work or perform a safety-sensitive function when the school district has actual knowledge of a driver with 0.02 alcohol concentration or greater whether or not an alcohol test was conducted.
  6. Ensure, through the school district's drug and alcohol testing program service provider, that the quality assurance plan, developed by the manufacturer and approved by the National Highway Traffic Safety Administration (NHTSA) for the evidentiary testing device or saliva alcohol testing device used for alcohol testing of its drivers, describes the inspection, maintenance and calibration requirements and intervals for the device.
  7. Ensure, through the school district's drug and alcohol testing program service provider, that the collection site person using an evidentiary breath testing device is a certified breath alcohol technician (BAT) or saliva test technician.
  8. Ensure, through the school district's drug and alcohol testing program service provided, that the collection site person using a saliva alcohol testing device is a certified BAT or saliva Test Technician (STT).

## DRUG AND ALCOHOL TESTING PROGRAM REGULATION

- K. Consequences of violating the drug and alcohol testing program policy, its supporting administrative regulations or the law.
1. Each violation is dealt with based on the circumstances surrounding the violation. The following consequences may result from a violation.
    - a. Drivers may be disciplined up to and including termination.
    - b. Drivers may not be permitted to perform safety-sensitive functions.
    - c. Drivers may be advised of the resources available to them in evaluating and resolving problems associated with the misuse of alcohol or use of drugs.
    - d. Drivers refusing to submit to drug and/or alcohol testing are considered insubordinate and are subject to termination.

Nothing in the drug and alcohol testing program policy, its supporting administrative regulations or the law relating to drug and alcohol testing limits or restricts the right of the board or superintendent to discipline, up to and including termination, a driver for conduct which violates the school district's policies, supporting administrative regulations and procedures.
- L. Drug and Alcohol Testing Records.
1. Drug and alcohol testing records are stored in locked files at limited access locations separate and apart from the driver's general personnel records.
  2. The records are released only with the written consent of the driver. Only those records specifically authorized for release may be released. However:
    - a. Records may be released to appropriate government agencies without a driver's written consent.
    - b. Records may be released to appropriate school district employees without a driver's written consent.
    - c.   3. With a written request, drivers may access and copy their drug and alcohol test records in accordance with the board policy related to employee records. A driver is not denied access to these records for failure to pay fees associated with other records.
  4. The following records of the school district's drug and alcohol testing programs are maintained for the time period indicated.
    - a. One year:
      - (1) Records of negative and canceled drug test results and alcohol test results of less than 0.02 alcohol concentration.

## DRUG AND ALCOHOL TESTING PROGRAM DEFINITIONS

Air blank - a reading by an evidentiary breath testing device (EBT) of ambient air containing non alcohol.

Alcohol - the intoxicating agent in beverage alcohol, ethyl alcohol, or other low molecular weight alcohols including methyl and isopropyl alcohol.

Alcohol use - the consumption of any beverage, mixture or preparation, including any medication, containing alcohol.

BAC - breath alcohol concentration.

Breath Alcohol Technician (BAT) - an individual who instructs and assists drivers in the alcohol testing process and operates an evidentiary breath testing device.

Canceled or invalid test - in drug testing it is a drug test that has been declared invalid by a Medical Review Officer or a specimen that has been rejected for testing by a laboratory. In alcohol testing it is a test that is deemed to be invalid under the law. A canceled test drug or alcohol test is neither a positive nor a negative test.

Chain of Custody - procedures to account for the integrity of each urine specimen by tracking its handling and storage from point of specimen collection to final disposition of the specimen. With respect to drug testing, these procedures require that an appropriate drug testing custody form be used from time of collection to receipt by the laboratory and that upon receipt by the laboratory an appropriate laboratory chain of custody form(s) account(s) for the sample or sample aliquots within the laboratory.

Collection site - a place where drivers present themselves for the purpose of providing body fluid or a tissue sample to be analyzed for specific drugs or breath alcohol concentration.

Confirmation test - for alcohol testing it is a second test following a screening alcohol test with a result of 0.02 breath alcohol concentration or greater that provides quantitative data of alcohol concentration. For drug testing it is a second analytical procedure (GC/MS) to identify the presence of a specific drug or metabolite which is independent of the initial test and which uses a different technique and chemical principle from that of the initial test in order to ensure reliability and accuracy.

Controlled substances/Drugs - marijuana, cocaine, opiates, amphetamines and phencyclidine.

Driver - any person who operates a school vehicle. This includes, but is not limited to: full time, regularly employed drivers; casual, intermittent or occasional drivers; leased drivers and independent, owner-operator contractors who are either directly employed by or under lease to the school district or who operate a school vehicle at the direction of or with the consent of the school district. For the purposes of pre-employment/pre-duty testing only, the term "driver" includes applicants for drivers of school vehicles positions.

## DRUG AND ALCOHOL TESTING PROGRAM DEFINITIONS

Initial test (or screening test) - in drug testing it is an immunoassay screen to eliminate "negative" urine specimens from further consideration. In alcohol testing it is an analytic procedure to determine whether a driver may have a prohibited concentration of alcohol in a breath specimen.

Licensed medical practitioner - a person who is licensed, certified, and/or registered, in accordance with applicable federal, state, local, or foreign laws and regulations, to prescribe controlled substances and other drugs.

Medical review officer (MRO) - a licensed physician (medical doctor or doctor of osteopathy) responsible for receiving laboratory results generated by an employer's drug testing program who has knowledge of substance abuse disorders and has appropriate medical training to interpret and evaluate a driver's confirmed positive test result together with the driver's medical history and any other relevant bio-medical information.

Non-suspicion-based post-accident testing - testing of a driver after an accident without regard to whether there is any reasonable suspicion of drug usage, reasonable cause to believe the driver has been operating the school vehicle while under the influence of drugs, or reasonable cause to believe the driver was at fault in the accident and drug usage may have been a factor.

Performing a safety-sensitive function - a driver is considered to be performing a safety-sensitive function during any period in which the driver is actually performing, ready to perform, or immediately available to perform any safety-sensitive function. (Alcohol tests may only be administered just before, during or just after the performance of a safety-sensitive function. At this time the U.S. Department of Transportation is interpreting this language to mean thirty minutes before or thirty minutes after the performance of a safety-sensitive function.)

Random Selection Process - when drug and alcohol tests are unannounced and every driver has an equal chance of being selected for testing.

Reasonable suspicion - when the school district believes the appearance, behavior, speech or body odors of the driver are indicative of the use of drugs or alcohol.

Refusal to test - when a driver (1) fails to provide adequate breath for alcohol testing without a valid medical explanation after he or she has received notice of the requirement for breath testing in accordance with the provisions of the law, (2) fails to provide adequate urine for drug testing without a valid medical explanation after he or she has received notice of the requirement for urine testing in accordance with the provisions of the law, or (3) engages in conduct that clearly obstructs the testing process. A refusal to test is treated as a positive drug test result or an alcohol test result of 0.04 alcohol concentration or greater.

Safety-sensitive function - all time from the time when a driver begins to work or is required to be in readiness to work until the time the driver is relieved from work and all responsibility for performing work. (Alcohol tests may only be administered just before, during or just after the performance of a safety-sensitive function. At this time the U.S. Department of Transportation is interpreting this language to mean thirty minutes before or thirty minutes after the performance of a safety-sensitive function.)

## DRUG AND ALCOHOL TESTING PROGRAM DEFINITIONS

## EMPLOYEE CONDUCT AND APPEARANCE

Employees are role models for the students who come in contact with them during and after school hours. The board recognizes the positive effect employees can have on students in this capacity. To this end, the board strongly suggests and encourages employees to dress themselves, groom themselves and conduct themselves in a manner appropriate to the educational environment.

Employees will conduct themselves in a professional manner. Employees will dress in attire appropriate for their position. Clothing should be neat, clean, and in good taste. Discretion and common sense call for an avoidance of extremes which would interfere with or have an effect on the educational process.

Licensed employees of the school district, including administrators, will follow the code of ethics for their profession as established by the Iowa Board of Educational Examiners.

## LICENSED EMPLOYEE EVALUATION

Evaluation of licensed employees on their skills, abilities, and competence is an ongoing process supervised by the building principals and conducted by approved evaluators. The goal of the formal evaluation of licensed employees, other than administrators, but including extracurricular employees, is to improve the education program, to maintain licensed employees who meet or exceed the board's standards of performance, to clarify the licensed employee's role, to ascertain the areas in need of improvement, to clarify the immediate priorities of the board, and to develop a working relationship between the administrators and other employees.

The formal evaluation criteria is in writing and approved by the board. The formal evaluation will provide an opportunity for the evaluator and the licensed employee to discuss performance and the future areas of growth. The formal evaluation is completed by the evaluator, signed by the licensed employee and filed in the licensed employee's personnel file. This policy supports, and does not preclude, the ongoing informal evaluation of the licensed employee's skills, abilities and competence.

Licensed employees will be required to:

- Demonstrate the ability to enhance academic performance and support for and implementation of the school district's student achievement goals.
- Demonstrate competency in content knowledge appropriate to the teaching position.

The first three consecutive years of a licensed employee's contract is a probationary period unless the employee has already successfully completed the probationary period in an Iowa school district. New employees who have successfully completed a probationary period in a previous Iowa school district will serve a two year probationary period. For purposes of this policy, an employee will have met the requirements for successfully completing a probationary period in another Iowa school district if, at the teacher's most recent performance evaluation, the teacher received at least a satisfactory or better evaluation and the individual has not engaged in conduct which would disqualify the teacher for a continuing contract.

Only the board, in its discretion, may waive the probationary period. The board may extend the probationary period for one additional year with the consent of the licensed employee. The board will make the decision to extend or waive a licensed employee's probationary status based upon the superintendent's recommendation. ## LICENSED EMPLOYEE RETIREMENT

Licensed employees who will complete their current contract with the board may apply for retirement. No licensed employee will be required to retire at a specific age.

Application for retirement will be considered made when the licensed employee states in writing to the superintendent, no later than the date set by the board for the return of the employee's contract to the board, the intent of the employee to retire. The letter must state the employee's desire to retire and be witnessed by another party other than the principal or the superintendent. Board action to approve a licensed employee's application for retirement is final and such action constitutes nonrenewal of the employee's contract for the next school year.

Licensed employees who retire under this policy may qualify for retirement benefits through the Iowa Public Employees Retirement System.

The board has the exclusive authority to determine the appropriate number of licensed employees. A reduction of licensed employees may occur as a result of, but not be limited to, changes in the education program, staff realignment, changes in the size or nature of the student population, financial situation considerations, and other reasons deemed relevant by the board.

The reduction in licensed employees, other than administrators, will be done through normal attrition if possible. If normal attrition does not meet the necessary reduction in force required, the board may terminate licensed employees.

It is the responsibility of the superintendent to make a recommendation for termination to the board. The process for reduction in force shall be as follows:

## EMPLOYEE FAMILY AND MEDICAL LEAVE REGULATION

### A. School district notice.

1. The school district will post the notice in Exhibit 409.3E1 regarding family and medical leave.
2. Information on the Family and Medical Leave Act and the board policy on family and medical leave, including leave provisions and employee obligations will be provided annually. The information will be in the employee handbook.
3. When an employee requests family and medical leave, the school district will provide the employee with information listing the employee's obligations and requirements. Such information will include:
  - a. a statement clarifying whether the leave qualifies as family and medical leave and will, therefore, be credited to the employee's annual 12-week entitlement or 26 week entitlement depending on the purpose of the leave;
  - b. a reminder that employees requesting family and medical leave for their serious health condition or for that of an immediate family member must furnish medical certification of the serious health condition and the consequences for failing to do so or proof of call to active duty in the case of military family and medical leave;
  - c. an explanation of the employee's right to substitute paid leave for family and medical leave including a description of when the school district requires substitution of paid leave and the conditions related to the substitution; and
  - d. a statement notifying employees that they must pay and must make arrangements for paying any premium or other payments to maintain health or other benefits.

### B. Eligible employees.

Employees are eligible for family and medical leave if three criteria are met.

1. The employee has worked for the school district for at least twelve months or 52 weeks (the months and weeks need not be consecutive); and
2. The employee has worked at least 1,250 hours year during the 12 months immediately before the date FMLA leave is to begin. Full-time professional employees who are exempt from the wage and hour law may be presumed to have worked the minimum hour requirement.

If the employee requesting leave is unable to meet the above criteria, the employee is not eligible for family and medical leave.

### C. Employee requesting leave -- two types of leave.

1. Foreseeable family and medical leave.
  - a. Definition - leave is foreseeable for the birth or placement of an adopted or foster child with the employee or for planned medical treatment.
  - b. Employee must give at least thirty days notice for foreseeable leave. Failure to give the notice may result in the leave beginning thirty days after notice was received. For those taking leave due to military family and medical leave, notice should be given as soon as possible

## EMPLOYEE FAMILY AND MEDICAL LEAVE REGULATION

- c. Employees must consult with the school district prior to scheduling planned medical treatment leave to minimize disruption to the school district. The scheduling is subject to the approval of the health care provider.
2. Unforeseeable family and medical leave.
    - a. Definition - leave is unforeseeable in such situations as emergency medical treatment or premature birth.
    - b. Employee must give notice as soon as possible but no later than one to two work days after learning that leave will be necessary.
    - c. A spouse or family member may give the notice if the employee is unable to personally give notice.
- D. Eligible family and medical leave determination. The school district may require the employee giving notice of the need for leave to provide reasonable documentation or a statement of family relationship.
1. Six purposes.
    - a. The birth of a son or daughter of the employee and in order to care for that son or daughter prior to the first anniversary of the child's birth;
    - b. The placement of a son or daughter with the employee for adoption or foster care and in order to care for that son or daughter prior to the first anniversary of the child's placement;
    - c. To care for the spouse, son, daughter or parent of the employee if the spouse, son, daughter or parent has a serious health condition; or
    - d. Employee's serious health condition that makes the employee unable to perform the essential functions of the employee's position.
    - e. because of a qualifying exigency arising out of the fact that an employee's \_\_\_ spouse; \_\_\_ son or daughter; \_\_\_ parent is on active duty or call to active duty status in support of a contingency operation as a member of the National Guard or Reserves.

      - (2) Employees shall be required to present medical certification of the family member's serious health condition and that it is medically necessary for the employee to take leave to care for the family member.
      - (3) Employees shall be required to present certification of the call to active duty when taking military family and medical leave.
    - b. Employee's medical certification responsibilities:
      - (1) The employee must obtain the certification from the health care provider who is treating the individual with the serious health condition.
      - (2) The school district may require the employee to obtain a second certification by a health care provider chosen by and paid for by the school district if the school district has reason to doubt the validity of the certification an employee submits. The second health care provider cannot, however, be employed by the school district on a regular basis.

## EMPLOYEE FAMILY AND MEDICAL LEAVE REGULATION

- (3) If the second health care provider disagrees with the first health care provider, then the school district may require a third health care provider to certify the serious health condition. This health care provider must be mutually agreed upon by the employee and the school district and paid for by the school district. This certification or lack of certification is binding upon both the employee and the school district.
- c. Medical certification will be required fifteen days after family and medical leave begins unless it is impracticable to do so. The school district may request recertification every thirty days. Recertification must be submitted within fifteen days of the school district's request.
- d. Employees taking military caregiver family and medical leave to care for a family service member cannot be required to obtain a second opinion or to provide recertification.

Family and medical leave requested for the serious health condition of the employee or to care for a family member with a serious health condition which is not supported by medical certification will be denied until such certification is provided.

For example, where, because of a serious health condition, the family member is unable to care for his or her own basic medical, hygienic or nutritional needs or safety or is unable to transport himself or herself to medical treatment. - Continuing treatment by a health care provider. A serious health condition involving continuing treatment by a health care provider includes:
  - A period of incapacity (i.e., inability to work, attend school or perform other regular daily activities due to the serious health condition, treatment for or recovery from) of more than three consecutive calendar days, including any subsequent treatment or period of incapacity relating to the same condition, that also involves:
    - Treatment two or more times by a health care provider, by a nurse or physician's assistant under direct supervision of a health care provider, or by a provider of health care services (e.g., physical therapist) under orders or, or on referral by, a health care provider; or

  - Any period of incapacity due to pregnancy or for prenatal care.
  - Any period of incapacity or treatment for such incapacity due to a chronic serious health condition. A chronic serious health condition is one which:
    - Requires periodic visits for treatment by a health care provider or by a nurse or physician's assistant under direct supervision of a health care provider;
    - Continues over an extended period of time (including recurring episodes of a single underlying condition); and,
    - May cause episodic rather than a continuing period of incapacity (e.g., asthma, diabetes, epilepsy, etc.).

## EMPLOYEE FAMILY AND MEDICAL LEAVE DEFINITIONS

- A period of incapacity which is permanent or long-term due to a condition for which treatment may not be effective. The employee or family member must be under the continuing supervision of, but need not be receiving active treatment by, a health care provider. Examples include Alzheimer's a severe stroke or the terminal stages of a disease.
- Any period of absence to receive multiple treatments (including any period of recovery from) by a health care provider or by a provider of health care services under orders of, or on referral by, a health care provider, either for restorative surgery after an accident or other injury, or for a condition that would likely result in a period of incapacity of more than three consecutive calendar days in the absence of medical intervention or treatment, such as cancer (chemotherapy, radiation, etc.), severe arthritis (physical therapy), kidney disease (dialysis).
- Treatment for purposes of this definition includes, but is not limited to, examinations to determine if a serious health condition exists and evaluation of the condition. Treatment does not include routine physical examinations, eye examinations or dental examinations. Under this definition, a regimen of continuing treatment includes, for example, a course of prescription medication (e.g., an antibiotic) or therapy requiring special equipment to resolve or alleviate the health condition (e.g., oxygen). A regimen of continuing treatment that includes the taking of over-the-counter medications such as aspirin, antihistamines, or salves; or bed rest, drinking fluids, exercise and other similar activities that can be initiated without a visit to a health care provider, is not, by itself, sufficient to constitute a regimen of continuing treatment for purposes of FMLA leave.
- Conditions for which cosmetic treatments are administered (such as most treatments for acne or plastic surgery) are not "serious health conditions" unless inpatient hospital care is required or unless complications develop. Ordinarily, unless complications arise, the common cold, the flu, ear aches, upset stomach, ulcers, headaches other than migraine, routine dental or orthodontia problems, periodontal disease, etc., are examples of conditions that do not meet the definition of a serious health condition and do not qualify for FMLA leave. Restorative dental or plastic surgery after an injury or removal of cancerous growths are serious health conditions provided all the other conditions of this regulation are met. Mental illness resulting from stress or allergies may be serious health conditions, but only if all the conditions of this section are met.
- Substance abuse may be a serious health condition if the conditions of this section are met. However, FMLA leave may only be taken for treatment for substance abuse by a health care provider or by a provider of health care on referral by a health care provider. On the other hand, absence because of the employee's use of the substance, rather than for treatment, does not qualify for FMLA leave.
- Absence attributable to incapacity under this definition qualify for FMLA leave even though the employee or the immediate family member does not receive treatment from a health care provider during the absence, and even if the absence does not last more than three days. For example, an employee with asthma may be unable to report for work due to the onset of an asthma attack or because the employee's health care provider has advised the employee to stay home when the pollen count exceeds a certain level. An employee who is pregnant may be unable to report to work because of severe morning sickness.

Serious Injury or Illness - an injury or illness incurred by a member of the Armed forces, including the National Guard or Reserves in the line of duty on active duty in the Armed Forces that may render the member medically unfit to perform the duties of the member's office, grade, rank, or rating.

Son or daughter - a biological child, adopted child, foster child, stepchild, legal ward, or a child of a person standing in loco parentis. The child must be under age 18 or, if over 18, incapable of self-care because of a mental or physical disability.
